Maths: Speedy Six

1. Stickers cost 7p each or 6 for 40p. How much money is saved by buying 24 stickers in groups of 6?
2. How many degrees are there in a clockwise turn from west to south east?
3. Write 5 minutes of an hour as a fraction in its lowest form.
4. The length of a rectangle is 3 times its width. If the perimeter is 192cm, what is the length?
5. What number when added to 48 three times gives a total of 120?
6. $7 \times y = 7532$. Find y.

Geography Homework

As part of our recent theme on 'Living with the Power of Mother Nature' we have been focusing on locating some of the major countries and principal cities of Europe and North America.

For this week's homework you are going to focus on Europe. See the attached sheet for the instructions. You will be tested on this in the week after Easter.

Spellings

Core	Support
education	away
demonstration	awake
position	asleep
opposition	around
competition	another
pollution	alive
revolution	other
contribution	any
existence	mother
convenience	keep

Optional Maths Extension:

One bonus house point available

Here are four fraction cards.

$$\frac{3}{4} \quad \frac{5}{8} \quad \frac{6}{12} \quad \frac{7}{16}$$

Use any **three** of the cards to make this correct.

☐ < ☐ < ☐

Homework is due in on 4th April
