

## Maths: Times table fun!

This week, we would like to do a push on learning all of the times tables in preparation for the Statutory Government Assessment in June. Every day, we would like the children to do some form of practice to learn/embed their times tables knowledge. Remember, all children should be able to recall all the times tables up to 12 x 12 within 6 seconds. Please do as many of the activities below as possible. Parents must sign the grid to show what activities the children have completed.
